# RapidX 6000

*Powered by Instacharge technology*

## Fastest Charging EV Battery

Powered by InstaCharge technology. RAPIDX 6000 battery is designed to get fully charged within 35 minutes.

## Made for Indian climate

RAPIDX 6000 battery is designed to work in tough Indian weather condition with an operating temperature range of - 30° to 60° Celsius

## 10 year + Battery life

RAPIDX 6000 battery is built using advance high power cell technology. This allows for up to 40,000 charge-discharge cycles and provides long life to the battery.

## Safest Battery in Indian Market

Unlike conventional EV batteries. RAPIDX 6000 is built to safely withstand the stressful conditions on Indian roads. RAPIDX batteries don't catch fire, don't explode and hence ensures Peace of Mind.
