

It's time to speed up change.

With the most advanced
Electric Vehicles built for Indian roads.

 **ALTIGREEN**

Proven technology that's light years ahead.

Made with experience, expertise and engineering excellence.

Longest range

No range anxiety. ARAI-certified range of 151 km on a single charge.

Largest volumetric capacity

20% more space for cargo with class-leading 177 cu. ft. container.

Highest ground clearance

Less impact from bad roads: highest ground clearance of 220 mm.

Best speed; greatest torque

Highest speed of 55 kmph. Highest torque at wheel of 810 Nm.

100% non-polluting

No air pollution: no danger to health.

We go the extra mile

Centered battery with independent suspension.

Sturdy locks on doors ensure safety.

Super fast charging: be back on the road at the earliest.

Save battery and the planet in Eco mode

Peace of mind assured with 3 years / 1 lakh km warranty.

Curved windshield for 180° view.

Better grip with larger 145 R12 radial tyres.

Larger capacity battery with a longer life.

Real-time monitoring with mobile-friendly telematics.

Gearless, effortless driving: no driver fatigue.

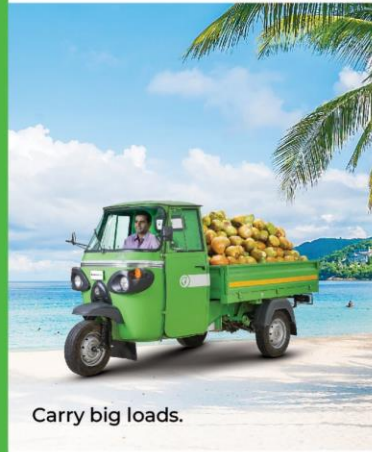

Unstoppable: be it rough weather or tough terrain.

Altigreen EVs are built for every challenge on our roads, from potholes to water logging to extreme temperatures.

India's leading cargo EV takes on the roads and the loads.

Urban, semi-urban and rural markets: Altigreen has them all covered.

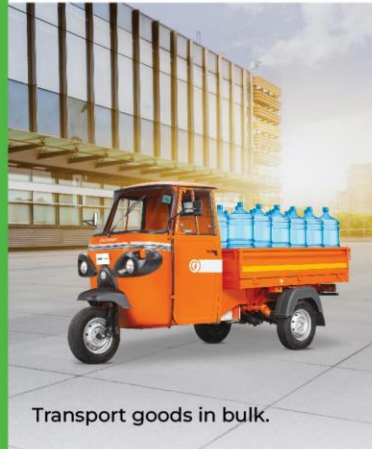

Carry big loads.

Deliver packages securely.

Transport large goods.

Transport goods in bulk.

Deliver perishables on time.

Transport industrial goods.

₹0.92
running cost
per Km.

Save up to
